

SYNOPSIS

Support and Refund Management Module for Food Delivery Application

Objective:

To provide users with a system to:

- Raise complaints (late delivery, wrong order, etc.)
- Request refunds
- Track complaint/refund status
- Enable admin to review and process refunds

Description:

The Support & Refund module allows customers to interact with the system when issues arise with their orders. Users can submit complaints or refund requests, which are then processed by the support/admin team. The system ensures transparency, tracking, and efficient resolution.

Key Features:

- Submit complaint
- Request refund
- Track request status
- Admin approval/rejection
- Refund processing

Actors:

- Customer
- Admin/Support Staff
- Payment System (External)
